### Introduction

**The House of Matthew** (HOM), a unique Home for the Underprivileged, is a registered body under Persatuan Pembaharuan Hidup Shana Zoe and approved by the Welfare Department of Selangor. It was set up in January, 2006, and is located at: No. 36, Jalan SG 7/3, Taman Sri Gombak, 68100 Batu Caves, Selangor Darul Ehsan, Malaysia.

Inspired by the burning desire to see the not-so-privileged children enjoy their God-given right to a better education, praiseworthy upbringing and the deep instilling of solid moral values, Pastor Sheila Wright has now materialized her deepest dreams for a greater good.

This vision, which has been radiating in her heart since 1985, has now become tangible reality in the form of a double-storey house with three rooms. However, the true structure of HOM lies not in concrete, brick and mortar; but rather in the firm foundations of tender love and care.

### Our Mission – *Our Fundamental Priorities*

1. To provide children from destitute families with a comfortable environment suitable for proper development and growth akin to those of a model home.
2. To provide an atmosphere conducive to learning, and the relevant education, that these children may rise up to become excellent students and contributing citizens.

3. To instill good moral and Christian values in these children that they will grow up to be praiseworthy denizens of the country who live a life of integrity, honesty and righteousness.

4. To help these children overcome their possible inadequate feelings of 'low self-esteem' and a sense of 'hopelessness', which may have sprouted from their challenging backgrounds, with unconditional love, unceasing care and wholesome self-awareness.

### Our Funding – *Expenses Incurred*

Being a non-profit organization we depend solely on financial contributions from well wishers and Corporate bodies. Your assistance is greatly needed in helping us help the children.

### Our Community Services – *Our Future Vision and Plans*

1. To organize counseling sessions for the financially-challenged parents, helping them to realize and develop their own hidden potential.
2. To help these financially-challenged parents secure better positions, more suitable housing opportunities and medical facilities.
3. To instill in these parents, through various programmes, discipline, integrity and a sense of purpose, thus releasing their optimum potential.
4. To help these parents, via structured tuition classes, to improve their understanding of Bahasa Melayu

and English, as well as any other subject deemed necessary.

### The Children – *Our Hopes and Vision*

Presently, the House of Matthew shelters 20 children with more in the near future. The age brackets of these young ones are between 7 –13 years old. They are properly housed in two separate rooms, one for the boys and the other for the girls. Their needs are lovingly cared for by a caregiver or 'house mother'.

These blessed children are showered with great care and unconditional love. Once a month, one family from the church will take a child home during the weekend. This 'fostering' is done so that the children can also get accustomed to 'family life' in the truer sense. They will be treated with equal love and care by the fostering parents in the same way the resident children are.

The children receive nothing short of par-excellence in terms of education, with a volunteer teacher coming to the house and giving them free personal tuition; thus enabling the young ones to cope with their studies and become better students.
